“Every child you encounter is a divine appointment.”

FROM THE DESK OF FOUNDER & PRESIDENT

Dear Supporter's,

As I look back and ponder upon the work which we have done even during the pandemic with lots of challenges on our way. Due to the pandemic most of the children have completely forgotten everything what they have learned for the last two years. The schools across India had closed down and moved on to online learning. But the students without access to the internet were cut off due to which many had dropped out from school. India has made great strides in improving access to quality education, increasing elementary school enrollment and reducing the number of out-of-school children. We bring back the children and admit them in the main stream of the school with a quality education. All the marginalized group will enjoy sustained and equitable benefit from quality education with learning outcomes focusing on foundational learning and life skills. It has been 8 years of our journey with many obstacles on our way but we continued to touch the beneficiary. No child should be denied quality healthcare because of their financial background. When you gift a life to the child, the ability to experience life, a chance to be happy and to succeed in life.

I would like to inform you all that we have once again expanded our mission education by installing a portable digital classroom and distribution of tablet with an inbuilt curriculum. The new project of orphanage home for girls is a very responsible project. As we enter into the next year it is very critical for us to look inside at our own capabilities and growth paths. This will surely prepare us all for the next year.

My deepest appreciation to our partners, donors, volunteers and our staff for contributing to the vision and mission. Their strength and sincerity is very crucial in this fight against inequality who always stood beside me as pillars during the tough times. Your contributions have helped us bring change even when it seemed impossible. I hope you will all continue to stand by us to support the underprivileged children. Once again thank you for supporting us to create many smiles.....

*Mrs. Nisha Malawat
Founder & President*

“Bridging the gap with a Digital Platform & leaving behind the footprints”.....

**MANAGING DIRECTOR,
MALAWAT SHIP
MANAGEMENT PVT. LTD.**

Dear Friends,

Abhilasha Foundation equips the children to flourish through quality education. It is the main catalyst for a better future for these underprivileged children. Behind all these figures there are inspiring stories of courage that has shown us the light. Education is very important for a sustainable development of the country. We empower the parents and children to value education and its life changing potential. Due to the pandemic which resulted in the complete closure of school especially the girls were being forced out of schools by their parents and we help them to take their first step towards education. Poverty remains one of the most obstinate obstacles with children from the poorest households almost five times more likely to be out primary school than those from the richest. We always believed that school is the best place and a powerful platform to connect with the children in need. We work for the betterment of the society with the available resources.

We are truly grateful for everything that you do for these underprivileged children we serve. Children from rural areas are more than twice as likely to be out of primary school than their urban counter parts. Girls education strengthens economies and reduces inequality. Education for girls is about more than access to school. Poor families often favour boys when investing in education. All these barriers are heightened especially during crisis.

*Basant Malawat
Trustee*

“Success is not final, failure is not fatal. It is the courage to continue that counts”.

INTERPRETATION OF OUR JOURNEY & IMPACT

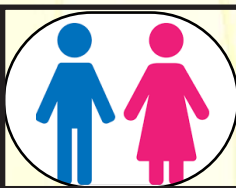

We have directly impacted the lives of more than 206575

295 children were financially supported to undergo critical medical open heart surgeries & Cancer treatment.

More than 20 health camps were conducted to cater the health care needs of the children & community. 15950 benefitted & lived a healthy life.

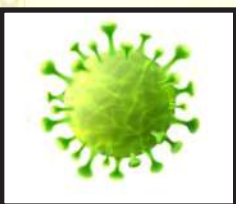

12790 children provided quality education this year their was an overall increase of 20% from last year in enrollment at mission education centers.

32425 children & community benefitted from campaigns conducted on nutrition, health & hygiene in all educational centers in slums.

17 Educational Digital portable classrooms installed for slum children deprived from education in Mumbai

145115 beneficiaries were supported during COVID 19 Pandemic by distributing sanitizer, masks, food grains to the migrants, needy, poor people & handicapped etc..

MISSION EDUCATION

Being locked out of schools, children are facing the lack of vital support systems (teachers & peers) in their immediate learning environment, which puts their learning curve at a considerable risk. We create a positive and enduring change in the lives of the underprivileged children, their families and communities living in poverty. Abhilasha Foundation lends a helping hand through long-term sustainable community programmes and immediate disaster relief assistance. All development work that we perform focuses on the underprivileged children - the young minds of tomorrow. Due to the economic constraints and schools are far many parents prefer their girls performing household chores or helping them to earn by doing small jobs like making bindi/clip/purse/domestic work etc. Parents are themselves uneducated and orthodox hence many girls leave their education midway. Abhilasha Foundation creates to mainstream these children in a sustained manner to cope up with the formal education system and sets the foundation for nation building. Underprivileged children lag at all stages of education. Education is costly for these children as parents do not understand the value of education because they themselves are uneducated. Hence, we teach the community the importance of education.

OUR EDUCATIONAL CENTRES:

- 1. Matoshree Vidya Mandir, Mankhurd: Installed digital classroom for more than 2925 underprivileged children are catering education & provided holistic development.**
- 2. National Educational Social Trust, Trombay: More than 2890 children are catering education & provided holistic development.**
- 3. The Maharashtra Education Welfare Trust, Kandivali: More than 295 underprivileged children are catering education & provided holistic development.**
- 4. Zilla Parishad School, Saiwan Village, Vasai: More than 1035 tribal and underprivileged children are catering education.**
- 5. Ambuj Wadi, Malad, Malvani: More than 250 underprivileged children are catering education & enrolled school dropouts students back to school.**
- 6. Harchand Lokhande Madhyamik Vidyalaya, Borivali: More than 250 underprivileged children are catering education.**
- 7. Shree Dhyaneswar Vidya Mandir, Netaji Nagar, Bandar Pakhadi Road. Kandivali West: Installed Digital classroom for 580 children are catering education.**
- 8. Saraswati Vidyalay, Petkar Compound, Damu Nagar, Akurli Road, Kandivali East: Installed Digital classroom for 412 children are catering education.**

TRUE LIFE STORIES OF CHILDREN

*“Empower children
to break barriers”*

Priya Ganesh Pardeshi is a 13 year old young, beautiful and innocent looking girl who stays in Navi Mumbai slum. She has one younger brother who is also studying in the same school. Her father works as a road cleaner and in the evening he sells vegetables. His income is only sufficient to feed the family two square meals a day. Her mother is a domestic servant. She is a very soft spoken and a sweet girl. She is good in her studies and enthusiastic to learn more. She loves dancing and reading comic books. She is focused in her studies. Her role model is her parents who are strong and confident. She is studying in DVS English School at Navi Mumbai but due to the pandemic her parents could not pay the fees. She aspires to become an IPS Officer. Abhilasha Foundation “Converted Priyanka Ganesh Pardeshi’s desires into reality” by giving the school fees to continue her studies.

Mahera Sardar Patel is a 9 year old beautiful and innocent looking girl who stays in Andheri slum. Her father works as a labourer and he is handicapped and walks with a stick. He does odd jobs to take care of the family. She is studying in St. Blaise High School. She is a very soft spoken, sweet girl. She is very intelligent in her studies and very enthusiastic to learn more. She also takes care of her siblings and help them in their studies. She aspires to become an Air Hostess. Abhilasha Foundation “Converted Mehera Sardar Patel’s desires into reality” by giving her the school fees to continue her studies.

CELEBRATED DAAN UTSAV AT SENIOR CITIZEN'S HOME & DISTRIBUTED FOODGRAINS

DISTRIBUTED FOODGRAINS DURING CALAMITY RELIEF AT CHIPLUN / KHED.

MISSION HEALTH CARE

The right to health can be regarded as part of the human right and applicable to all, children constitute the most neglected segment having been denied adequate health care. Moreover children are totally dependent upon adults for all of their needs. They have no control over adverse health events, proper nutrition, sanitation & environment. Abhilasha Foundation ensures that each child is provided with quick, effective and valuable treatment in time. Thus health must be assigned the highest priority in the developing countries. The parents from the economically weaker section find it difficult to treat their children who needs to undergo surgery or chemo treatment. It has been found that these parents then do not treat their children and leave everything to god. This is when Abhilasha Foundation steps in and support the child for their surgery/treatment and save these children and give them a new lease of life. The death of the children can be prevented with access to good health care and to provide the poor with access to quality healthcare and life saving supplies. All children have the right to survive and thrive. Yet children and adolescents still face significant challenges surviving past infancy and developing to their full potential. Life saving health services are often unavailable or inaccessible.

We work with various hospitals such as Kamalnayan Bajaj Hospital-Aurangabad, Jupiter Hospital-Pune, Ashokamedicare Hospital- Nashik, Onco Life Cancer Centre-Satara, Balaji Heart Hospital & Diagnostic Centre, Asian Heart Institute & Research Centre Pvt. Ltd., Sir H N Reliance Foundation Hospital & Research Centre, Jupiter Lifeline Hospital Ltd. P D Hinduja National Hospital & Medical Research Centre, Bai Jerbai Wadia Hospital for Children etc.

Health awareness: A child without sufficient nutrients in its daily intake is not only exposed to physical & motor growth delays but also to heightened risk of mortality, reduced immune defenses and decreased cognitive and learning capacities.

“Every child has the right to survive and thrive.”
